SUMMARY

I am a Software Engineer specializing in WordPress and web development, with over two years of experience building responsive and user-friendly websites. I have strong expertise in WordPress, HTML, CSS, Tailwind CSS, JavaScript, and React.js, along with working knowledge of MongoDB, Express.js, and Node.js. I hold a Bachelor's degree in Software Engineering from the University of Sahiwal and am committed to delivering high-quality, performance-driven web solutions aligned with industry standards.
